

WE KNOW SECURITY COMPLIANCE.

FusionPoint Security, LLC specializes in maximizing Risk Management Framework (RMF) activities to ensure systems and programs are strong, compliant, and resilient. Our trusted RMF and cybersecurity experts have honed our processes and technologies to provide clients exceptional value and demonstrated results.

SERVICE COMPETENCIES

FusionPoint Security is unique because we offer a technical perspective and expertise while maintaining a strategic understanding of the mission-related factors impacting our clients. We employ the proper balance of technical and analytical engagement teams to tackle all challenges. As a result, our clients are provided customized, effective, and right-fit services to include:

- > **Risk, Security, & Compliance:** Our core capabilities are risk, compliance, and resilience services, and we devote our resources to developing stronger solutions and expertise for our clients to achieve optimal FISMA compliance in the areas of:
 - Security Control Assessment (SCA) Services
 - RMF Lifecycle Services
 - ISSO Augmentation & Professional Support
 - Audit Preparation & Support
 - Continuous Monitoring Services & Support
- > **Program & Project Management:** In addition to providing CMMI and PMBOK-aligned program and project management as an integral component of our security services engagements, we provide project management as a standalone service, capable of adding value and ensuring quality in any program. Our Project Management services include:
 - Project Initiation, Planning, Execution, Monitoring and Controlling
 - Effective Governance & Alignment
 - Quality Assurance/Quality Control
 - Program Assurance
 - Management & Integration
 - Performance Improvement
 - Risk Management
 - Financial Control
 - Communications
- > **FedRAMP Services:** We help customers navigate the FedRAMP process and to get their products to the federal marketplace as quickly as possible. Between our extensive experience in NIST compliance and our team of high caliber FedRAMP advisors, we achieve quality results in every area of service we provide, including:
 - Business Case Analysis
 - Sponsorship Assistance
 - FedRAMP Authorization
 - Go-To-Market Strategy Establishment
 - SCA Support
 - 3PAO Assessment Assistance
 - FedRAMP Documentation Development
 - Technical Architecture
