

FusionPoint

FusionPoint Security, LLC specializes in maximizing Risk Management Framework (RMF) activities to ensure systems and programs are strong, compliant, and resilient. Our trusted RMF and cybersecurity experts have honed our processes and technologies to provide clients exceptional value and demonstrated results.

SERVICE COMPETENCIES

Security is not a one-size-fits-all service. FusionPoint understands the importance of the customer's mission and the role of mission-related factors in determining security approach, risks, and compliance. We employ the proper balance of technical and strategic expertise, providing our clients with customized, effective, and right-fit services to include:

CYBER RISK, SECURITY, & COMPLIANCE:

Our core capabilities are cyber risk, compliance, and resilience services, and we devote our resources to developing stronger solutions and expertise for our clients to achieve optimal NIST-based FISMA compliance in the areas of:

- ISSO Augmentation & Professional Support
- RMF Lifecycle Services
- Continuous Monitoring Services & Support
- Security Control Assessment (SCA) Services
- Audit Preparation & Support

FEDRAMP SERVICES:

We help customers navigate the FedRAMP process and get their products to the federal marketplace as quickly as possible. Between our extensive experience in NIST compliance and our team of high caliber FedRAMP advisors, we achieve quality results in services such as:

- FedRAMP Documentation Development
- Go-To-Market Strategy Establishment
- 3PAO Assessment Assistance
- FedRAMP Authorization
- SCA Support

PROGRAM & PROJECT MANAGEMENT:

We provide CMMI and PMBOK-aligned program and project management as an integral component of our security services engagements, and we also provide project management as a standalone service, capable of adding value and ensuring quality in any program. Our Project Management services include:

- Project Initiation, Planning, Execution, Monitoring and Controlling
- Program Assurance
- Risk Management
- Effective Governance & Alignment
- Management & Integration
- Financial Control
- Quality Assurance/Quality Control
- Performance Improvement
- Communications
